Vitamin C Serum

pH 5.0
S-38501

\$35 - 1oz

PURPOSE: For oily, problematic, sensitive, sun damaged and prematurely aged skin

PROPERTIES: A light, thin white lotion with a natural scent. This formula is hydrating and contains anti-oxidants that protect the skin from free radicals. It assists in skin rejuvenation and guards it against environmental elements. Recent research of Vitamin C has found it to be a vital factor in collagen synthesis, repair and protection of cell tissue. The Ascorbyl Glucoseamine structure is a polyamine complex containing L-ascorbic acid and polyglucosamine. This format protects the Vitamin C making it very stable while in the formula.
